

PROJECT PROBLEM STATEMENT

Marked by aging infrastructure and limited transportation options, the Bow-Concord I-93 Corridor neither meets the varied transportation and safety demands of interstate highway users, nor appropriately balances those demands against the interests of the Capitol Region communities in their unique identities and visions, their economic vitality, preservation of and access to their natural and historic resources, and their quality of life. Future population and economic growth, in the region and beyond, will increase transportation demand and further exacerbate this problem.
